## Career Objective

---

Motivated Computer Science Engineering student at SCMS School of Engineering and Technology, Kochi, with strong fundamentals in Java, Python, C, SQL and Linux basics. Hands-on experience in web development, AI-based systems, and backend logic through internships and academic projects. Seeking an entry-level role at Aurus Tech Pvt Ltd, where I can contribute to real-world projects, strengthen my technical expertise, and grow within a professional software environment.

## Education

---

- **SCMS School of Engineering and Technology, Ernakulam.**  
Btech Computer Science Engineering.  
8.57 CGPA till semester 6.
- **FACT Udyogamandal School, Ernakulam.**  
Plus two .  
91%.

## Technical Skills

- Python, Java, C
- SQL
- Git, GitHub, FAISS
- HTML, CSS, JavaScript, Bootstrap

## Soft Skills

- Teamwork & Collaboration
- Critical Thinking
- Empathy & Active Listening
- Quick Learning & Adaptability

## Experience

---

### Internship

- **Intern – Machine Learning & Artificial Intelligence, ICT Academy of Kerala**  
Oct 14, 2024 – Nov 18, 2024  
Built ML models using supervised learning and worked on data preprocessing, model training, and evaluation.  
Engineered components of an AI/ML pipeline, gaining exposure to chatbot and generative AI solutions.
- **Intern – Web Development, Hostcurator IT Solutions Pvt. Ltd., Kochi**  
June 5, 2025 – June 21, 2025  
Designed and developed responsive websites using HTML, CSS, and JavaScript.  
Implemented client requirements into functional UI features ensuring clean and maintainable code.

### Projects

- **CyberTrace – Explainable RAG-Based Chatbot for Cyber Threat Intelligence**  
Developed an AI-powered chatbot using Retrieval-Augmented Generation (RAG) and FAISS for efficient information retrieval. Built a modular Python backend and Streamlit interface for cybersecurity insights with SHAP-based explainability.
- **EchoHands – Sign Language to Text Conversion System**  
Developed and deployed a computer vision-based system to translate sign language gestures into text. Integrated real-time hand detection using OpenCV and MediaPipe to enhance accessibility for the deaf and hard-of-hearing community.

### Certifications

- Infosys springboard Internet Of Thing 101 Certification
- IBM SkillsBuild Data Analytics: Training Data into Decisions using Python
- Cybersecurity Virtual Experience – Deloitte Australia (Forage)

### Extracurricular

---

- Volunteered as host for the Computer Science Department Association Day program.
- Participated in TinkerHack – a women-only hackathon hosted by TinkerHub.
- Participated in Useless Projects - Makeathon by TinkerHub
